

Freedom of Information Request

Request:

Regarding the NHS pension scheme, please can you tell me

1. the charges payable upon the implementation of a pension sharing order
2. when these are paid
3. how these are paid

Status: Complete**Response Date:** 01/06/2009

1. The charges payable upon implementation of a pension sharing order are

£335.00 + VAT = £385.25.

2. Once we are in receipt of all the information and we can commence the implementation period and an invoice is raised and addressed to whoever is responsible for paying the charges. This is stated at Part D of the Pension Sharing Annex; which is provided to you by your solicitor. In the majority of cases they are split 50/50 between both parties.

- 3, Once the invoice/s have been raised they are then sent to NHS Finance Department in Newcastle, who are then responsible for collecting the monies from that point.
