

Application to leave the NHS Pension Scheme (SD502)

Opting out - important information

The benefits payable from the NHS Pension Scheme are valuable and anyone considering opting out of the Scheme should think very carefully before making such an important decision. Before you decide, please look at the member information on our website at: www.nhsbsa.nhs.uk/nhs-pensions, especially the relevant Member Guide, factsheets, and the Leaving Early and Transferring Out Guide.

Some general points to help you decide

- As a Scheme member you pay a contribution based on your pensionable pay. Your NHS employer also contributes 20.6% of your salary towards your pension.
- Contributions are deducted before tax so you receive tax relief on any amount you pay.
- There is a calculator on the NHS Pensions website which you can use to see some of the impacts of opting out.
- Unless you are absent from duty for any reason you may apply to join or rejoin the Scheme at any time subject to Scheme rules.
- There is a 12 month time limit for making an application to transfer pension benefits into the Scheme that starts from when you were first eligible to join this Scheme. Opting out now may affect your ability to transfer in previously accrued benefits if you later re-join.
- If you wish to opt out from the start of your NHS employment you must complete form SD502 within the first month.

Benefits you will be giving up if you opt out of the NHS Pension Scheme

- Your right to any further benefits from the Scheme in this employment.
- A pension payable for life fully guaranteed by the Government.
- If you are a member of the 1995 Section you will also get a retirement lump sum. This is usually tax free.
- If you opted out before 1 April 2008 and do not rejoin this Scheme you will not have the option of giving up some of your pension for a bigger lump sum. This option would normally allow you to receive £12 of lump sum for every £1 of pension you give up. Lump sums are usually tax free.
- Enhanced ill health retirement benefits if you become too ill to work.
- Life assurance cover (a lump sum payment) and family benefits if you die – pension benefits for your dependants, including children.

Think Carefully!

Deciding to opt out of your employer's occupational pension scheme is a major financial decision. If you are in any doubt about which pension arrangement will be best for you, you may wish to seek **independent** financial advice. Before you ask for advice, make sure you know which type of financial adviser you are dealing with. Most financial advisers will charge for their advice. The Member Guide available on the NHS Pensions website may be able to help you find local independent financial advice, please refer to the help and general information section of the guide.

Pension scams. Don't get stung.

Completing the form

If, after reading all the relevant information, you decide that you want to opt out of the NHS Pension Scheme you **must** ensure both Part 1 and Part 2 are completed. Part 2 must be sent to and completed by your Payroll Department. If both parts are not completed the form will be returned. It is important that this form reaches them as soon as possible to enable them to update your details and cease the deduction of contributions. Your employer will complete Part 2 and send the details to us. If you work for more than one NHS employer you will need to complete a separate form for each employer. This form cannot be signed until after you have joined the NHS Pension Scheme.
