

Leaving the Scheme - Transferring out

1 If you want to transfer to another UK pension scheme, read the Transfer Out Guide available on the NHS Pensions website to see if you are eligible.

2 If you are eligible, complete the application pack at the back of the guide.

3 Send the form to NHS Pensions and let your employer(s) know as there may be forms they need to complete too.

4 If you wish to transfer to an overseas pension scheme then follow the above instructions but read and complete the application form in the Overseas Transfer Out Guide.

5 We will aim to process the transfer within 20 working days of receiving the request.
