NHS Pensions - Cost and contributions for the Scheme years 2015/2016 through to 2018/2019

Practitioners and Non GP Providers

All Practitioner and Non-GP providers NHS Pension Scheme members should use this factsheet

Introduction

This factsheet is for Practitioners and non-GP Providers.

Practitioners are GPs of any type (excluding GP Registrars), General Dental Practitioners, and Ophthalmic Medical Practitioners.

Non-GP Providers are ‘single-handers’, partners or shareholders (including those on a fixed salary) in a GP Practice (or APMS/sPMS organisation) who are not GPs.

Every GP Practice and APMS/sPMS Contractor must, before the start of the pension year, inform NHS England (or its agent) or Local Health Board (Wales) of the estimated pensionable income for all the GPs (excluding freelance GP locums) and non-GP Providers. This is so that tiered employee contributions can be paid ‘on account’.

NHS (GDS and PDS) Dental Practices must notify NHS Dental Services of the estimated pensionable income for all the Providers (i.e. Partners/Contractors) and Performers (i.e. Associates) so that tiered contributions can be paid ‘on account’.

A GP Scheme member must take account of all their NHS GP income (i.e. Practice + + OOHs + CCG) when setting their tiered rate. For example, if the total GP pensionable income is £130,000 (Practice based income of £120,000 + CCG income of £5,000 + OOHs income of £5,000) their tiered rate across all their NHS GP pensionable income is 14.5%.

Background

Following discussions with Trade Unions and employer representatives the Department of Health published the member tiered contribution rates which would remain the same for four years; from 1 April 2015 to 31 March 2019.

The main features of the contribution rates structure are as follows:
The headline contribution rates as set out in the Proposed Final Agreement published in March 2012 were retained,

- in respect of 1995 or 2008 Section Practitioners and non-GP Providers tiered rates remained based on total actual ‘in year’ pensionable income,
- in respect of 2015 Scheme Practitioners and non-GP Providers tiered rates are based on total annualised ‘in year’ pensionable income,
- the rates are the same as the 2014/2015 Scheme year contribution rates except for a small adjustment to the tier 4/5 boundary; and
- both rates and tier boundaries are fixed for four years from 1 April 2015 to 31 March 2019.

The table below sets out the Practitioner and non-GP Provider tiered contribution rates from 1 April 2015 to 31 March 2019. These rates apply in both the 1995 and 2008 Sections and in the 2015 Scheme.

**Contribution Rates before tax relief (gross)**

<table>

<td>7</td>
<td>£111,377.00 and over</td>
<td>14.5%</td>
</tr>
</tbody>
</table>

Unlike other Scheme members the tiered contribution rates for Practitioners and non-GP Providers are based on their total ‘in year’ NHS pensionable income; i.e. 2015/16 Scheme contribution rates are based on total 2015/16 certified pensionable income.

**Key points for Practitioners and Non GP Providers**

- Because actual pensionable earnings are not known until year end the tiered rate is provisional at the start of Scheme year and is reviewed at year end.
- The provisional tiered rate is based on estimated pensionable pay declared on a return that every medical and dental Practice must provide to the relevant agent of NHS England or the Local Health Board in Wales prior to the start of the pension year. A GP Practice’s return must include the estimated pensionable income for all the GPs (excluding freelance GP locums) and non-GP Providers. A NHS dental Practice’s return must include the estimated pensionable income for all its General Dental Practitioners.
• For Practitioners and non-GP Providers who are members of the 1995 or 2008 Section their tiered rate (in a specific Scheme year) is based on their aggregated **actual** pensionable income in that year.

• For Practitioners and non-GP Providers who are members of the 2015 Scheme their tiered rate (in a specific Scheme year) is based on their **annualised** pensionable earnings in that year if they do not have continuous 2015 Scheme membership during the year. If they do have continuous 2015 Scheme membership their annualised and actual pensionable earnings are the same for the purposes of setting the tiered rate. There is more detailed information regarding the 2015 Scheme ‘annualising rules’ in the annual pension forms and Certificates that Practitioners and non-GP Providers must complete.

• Where a Practitioner may also be an Officer member (i.e. salaried Clinical Assistant) the Officer post is assessed separately and allocated its own tiered rate.

**Employer contribution rate**

The employer’s contribution rate changed from 14.3% to 14.38% from 1 April 2017 in respect of all Scheme members. This rate includes a scheme administration charge of 0.08%.

**Important** – The employee tiered contribution rates shown in this factsheet are the latest rates provided by the Department of Health. NHS Pensions will inform all stakeholders of any changes and details will be shown on the NHS Pension Scheme website.
