Reporting Time Periods

Supporting the NHS, supplying the NHS, protecting the NHS

NHS Dental Services is a service provided by the NHS Business Services Authority

Reporting Time Periods

There are two types of time periods associated with FP17 Activity

Schedule Month: the month the FP17 was scheduled and processed.

Reporting Year: the year the treatment is allocated to, based on the date of completion (or acceptance date where there is no completion date)

Reporting Month is the month the treatment is allocated to

Reporting Time Periods

Schedule & Report Month are formatted in the same way: YYYYMM therefore January 2011 is entered as 201101

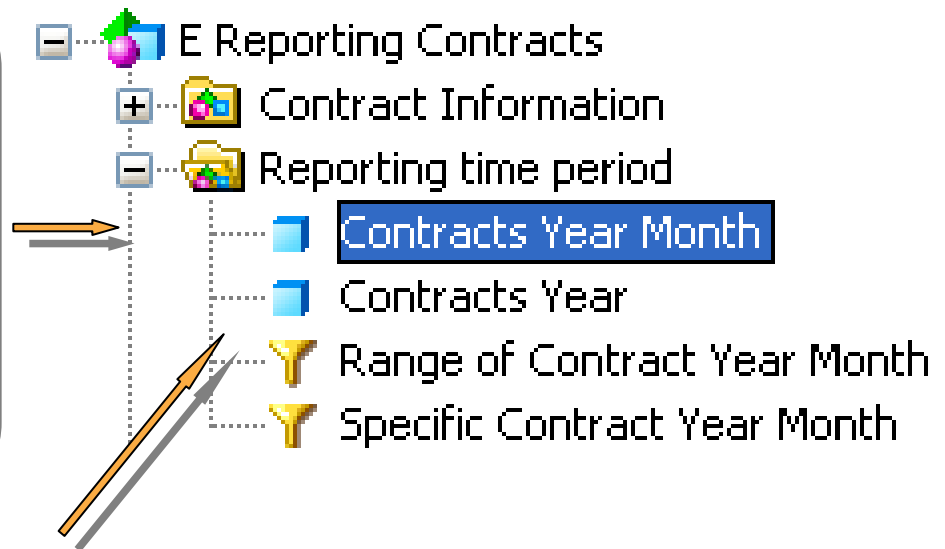

Reporting Year is formatted YYYY, which are taken from the end year therefore values are '2010' for April 2009 to March 2010, '2011' for April 2010 to March 2011

Reporting Time Periods

Contract related data from the E Reporting Contracts universe uses a separate time period

Contracts Year Month . Each contract has one record for each month of the year that the contract is open. This should only be used for reporting POL detail held at month level. Care should be taken when aggregating this data

Contracts Year is the financial year in which the contract is active. The format is YYYY/YYYY.
