Wellbeing
Strategy and action plan 2017/18
1. Introduction and links to our broader strategy

This strategy is a public commitment of how the NHS Business Services Authority (NHSBSA) plans to continue supporting its people live healthier lives in relation to both physical and mental wellbeing. It supports the approach advocated by the NHS Five Year Forward View, and the commitment made by NHS England Chief Executive, Simon Stevens, to improving the health and wellbeing of the NHS workforce. It also sets out how the NHSBSA will continue to add broader value to society and the economy through its activities.

For the purposes of this strategy, wellbeing is seen as embracing the whole person – physical and mental health both inside and outside of the workplace and is greater than simply an absence of ill health and disease. It is a feeling of physical, emotional and psychological wellness.

Our Wellbeing Strategy and Action Plan is part of the NHSBSA’s broader approach to Corporate Responsibility, and our ‘Good Business’ approach. For more details, read our Good Business – Corporate Responsibility Strategy.

Our wellbeing objectives, targets and actions (Appendix 1) are created through extensive consultation, as well as consideration of our legal and mandated requirements. The following are our key sources of consultation and information informing this strategy:

- Community, Environment and Wellbeing (CEW) Committee (quarterly senior leadership group, setting strategy, chaired by Corporate Secretary), including materiality and stakeholder review (see our Good Business – Corporate Responsibility Strategy)
- Community, Environment and Wellbeing (CEW) Staff Network (quarterly consultative group for local staff representatives)
- NHS England: NHS Staff Health and Wellbeing CQUIN
- Better Health at Work Award criteria

The NHSBSA Strategy explains the vision of the NHSBSA, including our strategic goals. The wellbeing strategy and action plan embodies all of our values and contributes to the delivery of many of our strategic goals. The Action Plan at Appendix 1 clearly states which strategic goals the actions in each objective area contribute to.
2. **Our vision**

We recognise that the health and wellbeing of our people directly relates to our organisational performance and the delivery of our strategic goals. We also have a broader societal impact in the way we behave as an organisation. As part of the health and care system, we also have a duty and an ambassadorial role in promoting and supporting health and wellbeing.

**We are committed to** continually improving our performance by setting and reviewing objectives and targets relevant to the NHSBSA each year. We focus on:

- maintaining an appropriate governance framework, to ensure compliance and continuous improvement
- encouraging and supporting our people to develop and maintain healthy lifestyles
- supporting our people with existing or developing health and wellbeing issues
- providing a healthy working environment for our people, including via organisational policies and physical environment
- acting as a health and wellbeing ambassador
- creating wider environmental, social and economic value, through our activities and our supply chain

**We will achieve this by:**

- consulting and communicating with our people, and others where appropriate, about health and wellbeing
- actively engaging with relevant forums and groups to learn from others and share our knowledge and experience
- ensuring the required resources are in place to deliver our strategy
- delivering the NHS Staff Health and Wellbeing CQUIN, and Better Health at Work Awards criteria requirements
- measuring and monitoring our impact
4. Meeting our duties and delivering improvements

The NHSBSA has a legal duty of care for its people. Providing a safe and healthy working environment is a starting point for us. We also have a duty to implement the key actions put forward in the NHS Staff Health and Wellbeing CQUIN. We must act as an ambassador for health and wellbeing, and ensure we are ‘getting serious about prevention’.

We recognise that a proactive approach to the promotion of health and wellbeing delivers a broad range of benefits.

Why health and wellbeing is important to us

The key benefits include:

- a healthier, happier, engaged workforce with increased motivation and morale
- increased employee retention and reduced sickness absence and associated costs
- improved organisational reputation, with both potential employees and service users
- improved accessibility to work for those with health issues
- legal compliance and delivery of government policies
- reduced pressure on the health and care system
- improved engagement and integration with local communities and customers.

Added value

We also recognise that our activities, products and services, and the way we choose to deliver them, can create added value for the broader environment, society and the economy. This impact is often far greater than our immediate operational areas of focus. We aim to maximise this value, for example by assessing projects and procurement activity to enhance our added value.
Delivering our objectives

Our wellbeing action plan (Appendix 1) gives details of:

- **Actions** we will take (including action owner, outcome and target deadline)
- The wellbeing **objective** it supports
- Associated **target** if applicable

Each objective also contributes to the delivery of one or more of the **NHSBSA's strategic goals** and these are also highlighted, along with the **broader trend** the objective is also aiming to address, taken from our materiality assessment (see our **Good Business – Corporate Responsibility Strategy**).

Responsibilities and governance

Our Chief Executive is ultimately responsible for the delivery of this strategy. This is delegated to the NHSBSA Corporate Secretary as Leadership Team representative.

At NHSBSA Board level, Mark Ellerby is our non-executive director champion, ensuring appropriate oversight of the executive directors’ performance.

Our Community, Environment and Wellbeing (CEW) Committee drives the agenda from a strategic level. This is chaired by our Corporate Secretary, and is made up of senior managers from across the business (terms of reference are available on request). The committee meets at least quarterly, and provides strategic oversight and assurance to the Board on delivery of the strategy.

Our Community, Environment and Wellbeing (CEW) Staff Network provides the link to our people, and ensures engagement and consultation happens across the business (terms of reference are available on request). The group meets at least quarterly and staff representatives ensure the agenda is delivered across all of our business areas.

**Reporting and monitoring our progress internally**

Progress against our objectives, targets and actions is monitored by the Corporate Responsibility Manager, collating data from relevant functions as required.

Reporting is undertaken as follows:

- Board – Corporate governance papers at each meeting and Annual Report
• Leadership Team – Quarterly update report and Annual Report

• Staff – Quarterly update report, Loop (newsletter) and Hub (Intranet) articles and Annual Report.

**Reporting progress to our external stakeholders**

We publish specific details on our wellbeing performance in the [NHSBSA Annual Report and Accounts](#) and also a specific [Corporate Responsibility Annual Report](#). This contains detailed data related to our performance and progress, with commentary.
Appendix 1 – Wellbeing Action Plan for 2017/18

This action plan sets out our wellbeing objectives to ensure we continue to improve our performance, and meet our legal and mandated duties. The plan is set out to clearly show which of the materiality assessment trends each objective relates to.

Objectives are grouped into the following key areas; 1) Maintaining an appropriate governance framework, to ensure compliance and continuous improvement, 2) encouraging and supporting our people to develop and maintain healthy lifestyles, 3) supporting our people with existing or developing health and wellbeing issues, 4) providing a healthy working environment for our people, including via organisational policies and physical environment, 5) acting as a health and wellbeing ambassador, 6) creating wider environmental, social and economic value through our activities and supply chain. Objectives in each area contribute to delivery of one or more NHSBSA strategic goals, and these are included in each section. Also, the UK/ global trend they are addressing is highlighted.

How our objectives have been set:
The key below indicates which objectives have been set as a result of either; being a legal requirement, being mandated by central government (e.g. CQUIN), being a requirement of the Better Health at Work Awards (BHaW), or were highlighted as a priority during the consultation and engagement we have carried out with our CEW Committee (including stakeholder input) or CEW Staff Network.

Each objective in the plan is marked with the relevant symbol(s), under the column headed ‘Benefits/Rationale’;

<table>
<thead>
<tr>

<th>Gov – Government Mandate</th>
<th>BHaW – Better Health at Work Award</th>
</tr>
</thead>
<tbody>
<tr>
<td>E – Employee consultation (including CEW Staff Network)</td>
<td>M – Management consultation (including CEW Committee)</td>
<td></td>
</tr>
</tbody>
</table>
Summary of targets:

The following is a summary of our corporate targets:

**Operational performance indicators:**
- Sickness absence less than 3%
- Staff turnover rate of up to 10%

**Management performance indicators:**
- Maintain Better Health at Work Award – at Continuous Improvement Level
- Over 80% staff engagement score in annual staff survey
- Over 80% of staff indicate they receive relevant wellbeing information in NHSBSA staff survey

We will also monitor uptake of: a) Mental Health First Aider provision, b) Domestic Abuse Champion provision, c) Occupational Health and Employee Assistance Programme.

These are highlighted below where linked to a specific action.

**Longer term corporate responsibility goals** and targets are published in our [Good Business – Corporate Responsibility Strategy](#).
Objective Area 1: Maintaining an appropriate governance framework to ensure compliance and continuous improvement

How objective 1 supports the NHSBSA strategic goals:

- **We will improve service and deliver great results for customers** – Transparency, continuous improvement and ensuring legal compliance gives our customers confidence in how we operate our business.

Trend considered: Value Change

| k      | Maintain membership of stakeholder groups, including IOSH, Better Health at Work Awards, BITC Alumni Group, ALB HR Directors Group, CIPD, ICRS and others as identified | Ensures alignment with mandated requirements, and sharing of best practice *(Gov, BHaW, E, M)*  
**Added value:** Knowledge and experience shared with other organisations | CEW Committee | 31/03/18 | Meetings attended | Staff survey |
| l      | Maintain Better Health at Work Award at ‘Continuing Excellence’ level | Assurance gained from being externally audited, including awareness of best practice *(BHaW, E, M)*  
**Added value:** Showing leadership to, and sharing of approach with, other organisations, encouraging responsible business practice | Corporate Responsibility Manager | 31/03/18 | External Better Health at Work Award maintained | Better Health at Work Award maintained  
Staff survey |
| m      | Implement the requirements of the NHS staff health and wellbeing CQUIN | Improved working practices linked to specific requirements of CQUIN *(Gov, E, M)*  
**Added value:** Improvement in public health, reducing pressure on health and care system | Corporate Responsibility Manager | 31/03/18 | CQUIN requirements delivered | Absence / turnover stats  
Staff survey |
| n      | Analyse sickness absence data to inform targeted projects/ initiatives in year | Informs targeted work to reduce sickness *(Gov, BHaW, M)* | Head of HR | 31/03/18 | Data analysed and areas of focus identified | Absence / turnover stats  
Staff survey |
Objective Area 2: Encouraging and supporting our people to develop and maintain healthy lifestyles

How objective 2 supports the NHSBSA strategic goals:

- **We will improve service and deliver great results for customers** – Helping our people develop and maintain healthy lifestyles increases staff morale, productivity and attracts new people to work in our business.
- **We will reduce our unit costs by 50%** - Helping our people look after their health and wellbeing, and that of their family, increases staff productivity and efficiency. It also reduces absence, staff turnover, and help to attract new people to our business.

Objective Area 6: Creating wider environmental, social and economic value through our activities and supply chain

How objective 6 supports the NHSBSA strategic goals:
- **We will improve service and deliver great results for customers** – By embedding sustainable procurement practices and engaging with our suppliers we will ensure that they help us deliver for our customers. Creating wider value for the environment, society and economy also has a positive impact on the public.
- **We will reduce our unit costs by 50%** - Embedding wellbeing requirements as part of our contracts can help ensure efficiency and value-for-money are achieved.
