What NHS dental care means to you

Emergency arrangements

Whenever possible please contact us about urgent treatment during normal surgery hours. If you need to be seen the same day, please get in touch as early in the day as possible. If an emergency arises out of hours, you can call NHS 111. They can give you details of out-of-hours dental services in your area.

Replacements free of charge

If you are 18 or over and a filling, root filling, veneer, inlay or crown provided by me under the NHS within the last 12 months has to be replaced, you will not be charged if you return to me, unless:-

- a) the treatment was temporary; or
- b) it was provided against my advice; or
- c) the replacement is necessary because of accident; or
- d) a different treatment is necessary because a satisfactory replacement is not possible.

This NHS cover does not apply to any private treatment you may have.

Dental treatment charges

I want you to understand the treatment being offered and any charge which may apply. Overleaf is a treatment plan and an estimate of the cost. Within 2 months of completion of the course of treatment detailed overleaf, should you require further NHS treatment in either the same or lower charge band, you will not normally need pay again.

Please ask if you do not understand this or need any further information.

Treatment on referral

With your agreement, it may be necessary to refer you to another dentist under NHS arrangements, for part of your course of NHS dental treatment. Where this happens you will not be asked to pay a further charge for your NHS dental treatment: only one charge will be made by your referring dentist, as outlined in the treatment plan overleaf.

What the NHS will provide
