Manage applicant at risk .....	8

## Overview

This guide provides instructions for an employer on how to identify applicants at risk of redundancy employed within their organisation. This functionality is only available to a system administrator once they login to the NHS Jobs service.

The employer using NHS Jobs will easily identify these applicants once shortlisting has been completed with a status of at risk.

## Manage at risk

This section provides instructions for how to manage at risk applicants by signing in to your job adverts dashboard in the NHS Jobs system.

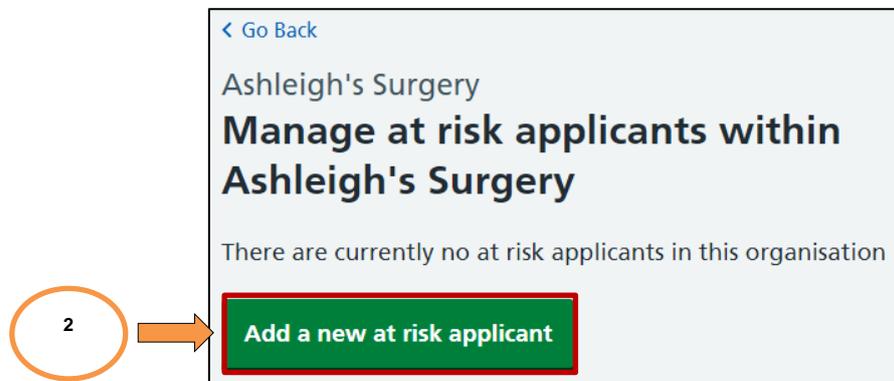

1. Select **Manage at risk applicants**.

## Add at risk applicant

This section provides instructions for how to add a new at risk applicant.

2. Select **Add a new at risk applicant**.

## Add at risk applicant details

This section provides instructions for how to add the at risk applicant details.

3. Enter the at risk applicant information in the boxes:

- **First name**
- **Last name**
- **Email address**

4. Select **Continue**.
