

<b>Release date</b>
10 December 2020

<b>Number</b>	<b>Name</b>	<b>Description</b>	<b>Benefit / Value</b>
1	Automated password	When a new user is set up, the system will create a password for them, instead of the employer doing this. The user will receive an email with a link and be prompted to change their password when first logging in.	Providing a more secure way for users to be set up on the system.

2	Shortlisting improvements	<p>Improvements made to online and offline shortlisting. These include re-ordering some of the screens, changing content and headings, as well as adding new buttons and / or links to some of the pages.</p> <p>There are 3 scenarios to cover shortlisting:</p> <ul style="list-style-type: none"><li>- all the applicants who've applied</li><li>- some of the applicants and reject the others</li><li>- none of the applicants</li></ul>	Employers will have a clear information explaining what steps they need to take, and when.
---	---------------------------	---	--

3	Continuous improvement	Changes have been made to: <ul style="list-style-type: none"><li data-bbox="663 268 954 347">- Global banner colour change</li><li data-bbox="663 387 954 467">- Scoring page criteria alignment</li><li data-bbox="663 507 954 619">- Armed Forces information on check your answer page</li></ul>	To reflect the banner is for information only, not a warning.  Employers will see their criteria aligned to the section they are scoring  Applicants will see all of their answers on the review page and be able to make changes, if needed.
---	------------------------	---	---

4	Bug fixes	<p>Various bug fixes to improve the system:</p> <ul style="list-style-type: none"> <li>- Interview panel information behind a hidden panel is closed instead of already being opened</li> <li>- Sign in/ Sign out links for employers now visible when using a mobile device</li> <li>- Style change to shortlisting screen</li> <li>- Give feedback link now directs the user to an email, instead of the job listings page</li> </ul>	<p>Providing a more seamless journey for the user by removing bugs found in the service.</p> <ul style="list-style-type: none"> <li>- Only relevant information is shown to the user</li> <li>- Employers are now able to sign in and out on a mobile device</li> <li>- Style guidelines are consistent throughout the service</li> <li>- Users are able to give feedback to the team</li> <li>- Employers are able</li> </ul>
