

Dental Activity 9000 codes

This guide will help you understand the codes allocated to the dental activity data submitted to the NHSBSA for Compass processing.

In this guide, there is listed all the codes used for general and orthodontic data submissions in England, Wales and the Isle of Man.

There are three sections highlighted to indicate General Clinical Data Set codes, Orthodontic Data Set codes and Covid related items. Non highlighted information is for all other codes.

	General Clinical Data Set codes
	Orthodontic Data Set codes
	COVID related codes. From January 2023 it is no longer necessary to record these
	All other codes

You can use the 'Find' (ctrl + F) function to search for a specific error code.

You'll then see:

- Code
- Description
- Number
- Additional Information

If the information does not provide the details you are looking for, please get in touch with our Customer Contact Centre.

We can support you by telephone on 0300 330 1348.

Our Customer Contact Centre is open 8am to 6pm Monday to Friday.

Please note that the 9000 codes were introduced from April 2006 with the new contract. If you submit your claims using a Dental Practice Management System, please contact your system supplier for any queries relating to how dental treatments are mapped to the 9000 codes.
