Guidance for the completion of FP17 activity submissions in England (April 2025)

Introduction

This guide has been produced to help providers and clinicians to:

- use the online FP17 form available in the NHSBSA Compass system
- understand the changes to the FP17 required to support the contract changes announced on 19th [July 2022](#).
- address some of the more common questions relating to the business rules associated with the processing of FP17s, whether they have been submitted using the online forms or submitted via a practice management system.

This guide can also be used as a training tool for individuals new to NHS dentistry.

Please note that this guide is only to be used for the submission of dental activity submissions for general courses of NHS dental treatment in England.

Details on the dental activity submission for orthodontic courses of NHS dental treatment can be found in [Guidance for the completion of FP17O activity submissions](#).

Dental Care Professional

Direct Access Clinician Type

A Dental Care Professional carried out all or part of the work in this course of treatment:

Dental Care Professional Type

Enter the GDC Number of the Dental Care Professional

If a Dental Care Professional (DCP) is providing the full course of dental treatment as a Direct Access Clinician, please select the Direct Access Clinician type from the drop down list (Dental Therapist, Dental Hygienist or Clinical Dental Technician).

Please note that the boxes below this do not need completing unless another DCP clinician is assisting with the course of treatment.

Direct Access Clinician Type

A Dental Care Professional carried out all or part of the work in this course of treatment:

Dental Care Professional Type

Enter the GDC Number of the Dental Care Professional

Where a DCP is assisting with a course of treatment opened by a dentist or Direct Access Clinician, select one of the DCP options available from the drop down list.

A Dental Care Professional carried out all or part of the work in this course of treatment:

Dental Care Professional Type

Enter the GDC Number of the Dental Care Professional

Dental Therapist
Dental Hygienist
Dental Nurse
Clinical Dental Technician

Only one box is required to be selected.

The GDC Number of the DCP must be entered, this can be completed by clicking on the magnifying glass next to the box and selecting from the list, or alternatively manually entering their GDC number. The system will automatically insert the mandatory leading zeroes and show the name of the DCP to the right of the box.

When a DCP GDC Number is entered, one of the DCP options must be selected and vice versa otherwise the form will be rejected. Any DCP whose details are entered here must be present on the DCP GDC register and must be registered at of the Date of Acceptance entered, otherwise the form will be rejected.

Where a DCP has assisted on a course of treatment for part or all of the treatment , there must still be the personal ID number of the clinician responsible for the course of treatment entered on the form and at least one “significant” Clinical Data Set treatment item must also be entered.

The personal ID number included on the FP17 is at the discretion of the Provider, but the recommendation is that it is either the dentist or Direct Access Clinician supervising the treatment, or alternatively the personal ID number of the contract holder.

Treatment Dates/Incomplete

For Incomplete Treatment the Band for actual
Treatment provided

Date of Acceptance

Completion Date same as Acceptance

☐

Date of Completion or Last Visit

Flexible Commissioning Flag

Incomplete treatment – For banded courses of treatment commenced but not completed, select 1,2 or 3 from the drop-down list to show the work that has been completed. The patient charge will be calculated against whichever of these boxes is crossed. A charge band must also be present in Treatment Category, showing the treatment that has been started, so the band crossed in this section must be the same as, or higher than, the band crossed in Treatment Dates/Incomplete.

Date of Acceptance – Enter date of acceptance for the course of treatment. This is required on every form.

Completion or Last Visit – Enter date of completion if the course was completed, or the date of last visit if it was not completed. All forms should be submitted within two months of the date of completion. If a decision is made to mark the form as incomplete, it should be submitted as quickly as possible.

Completion date same as acceptance – This can be Selected if the date of acceptance and date of completion are the same. There is no need to complete the Completion or Last Visit information if this is selected

Flexible Commissioning Flag – Select an option from the drop-down menu. Please note that these indicators should only be used if the contract is participating in a flexible commissioning arrangement and the care which has been provided relates to that arrangement.

Please note that for any claim with a Date of Acceptance on or after 1st April 2022, unless it is saved as a draft claim, any entry made on this screen must conform with any entries made on the Clinical Data Set tab as follows. It is important that the clinical dataset accurately reflects the treatment provided, as this may affect the allocation of units of dental activity.

- If Band 1 is entered only treatments appropriate to Band 1 can be selected on the Clinical Data Set tab. There must also be at least one Band 1 treatment item selected.

- If Band 2 is entered, Band 3 treatments cannot be selected on the Clinical Data Set tab. There must also be at least one Band 2 treatment item selected. Band 1 items can be selected in addition to the band 2 items.
- If Band 3 is entered there must be at least one Band 3 treatment item selected on the Clinical Data Set tab. Band 1 and Band 2 items can be selected in addition to the band 3 items.
- If Urgent Treatment is entered only treatments appropriate to Bands 1 and 2 can be selected on the Clinical Data Set tab.
- If Reg 11 is entered there must be at least one replaceable appliance treatment item selected on the Clinical Data Set tab.
- If Prescription Only, Denture Repairs, Bridge Repairs, Arrest of Bleeding or Removal of Sutures is entered then there cannot be any Band 1, 2 or 3 item selected on the Clinical Data Set tab.

Note that this check will not be carried out for claims that have either Incomplete Treatment Band set or which have Referral for Advanced Mandatory Services present.

Scale and polish – This box should be selected if a scale and polish is carried out.

Fluoride varnish – Select this box to indicate that a topical fluoride preparation has been applied to the surfaces of any primary and permanent teeth as a primary preventive measure.

Fissure sealants – Enter the number of permanent teeth where sealant material has been applied to the pit and fissure systems as a primary preventive measure.

Radiograph(s) taken – The total number of radiographs taken should be entered in this box irrespective of the type or size. For example, 2 bite wings and 1 panoral = 3 radiographs.

Endodontic treatment Pre 01/10/2022– The number of teeth endodontically treated (root filled) should be entered in this box. Please note for Endodontic treatment carried out on new courses of treatment starting on or after 01/10/2022 the following two Endodontics options should be used.

Endodontics - Molar - The number of permanent Molar teeth endodontically treated (root filled) should be entered in this box. Please note for Endodontic treatment carried out prior to 01/10/2022 Endodontic treatment Pre 01/10/2022 should be used.

Endodontic – Non-molar - The number of permanent Non-molar teeth endodontically treated (root filled) should be entered in this box. Please note for Endodontic treatment carried out prior to 01/10/2022 Endodontic treatment Pre 01/10/2022 should be used.

Highest BPE Sextant Score – Enter the Highest BPE Sextant Score for all banded courses of treatment (bands 1, 2 and 3). This is accessed by clicking on the down arrow to the right of the box which displays a drop-down list 0-4 plus – (please note that hyphen is to be used when it is not possible to carry out a BPE assessment).

The image shows a form with several fields. The field 'Highest BPE Sextant Score' is highlighted with a red box. To its right, a dropdown menu is open, also highlighted with a red box, showing a list of options: 'Score of zero', 'Score of 1', 'Score of 2', 'Score of 3', 'Score of 4', and a hyphen '-'. Below the highlighted field, there are other form fields: 'Crown(s) provided', 'Lower denture - Metal', 'Referral for advanced mandatory services', and 'Best Practice Prevention'.

Entry of Highest BPE Sextant Score is mandatory on all adult banded claims when the Date of Acceptance is on or after 01/10/2022, but remains optional for all patients under

the age of 18 at the Date of Acceptance.

Untreated Decayed Teeth - Enter the total number of Untreated Decayed Teeth at the clinical examination (check-up or start of a course of treatment). This is the total number of teeth which are decayed into dentine (excluding arrested decay) and includes teeth which have recurrent decay around fillings.

Entry of this information is mandatory on all adult banded claims (Bands 1, 2 and 3) when the Date of Acceptance is on or after 01/10/22, but remains optional for all patients under the age of 18 at the Date of Acceptance.

Please note that Untreated Decayed Teeth is distinct from the existing options for recording of the number of decayed permanent and deciduous teeth at the start of a course of treatment.

Permanent fillings – Enter the number of teeth (not the total number of individual restorations) that have been therapeutically treated by the placement of directly applied permanent restorations, namely:

- Permanent fillings in amalgam, composite resin, synthetic resin, glass ionomer, compomers, silicate or silicophosphate materials (includes any acid-etch or pin retention).
- Sealant restorations involving the placement of composite resin, glass ionomer or compomer material.

Extractions – The number of teeth extracted should be entered into this box. This also includes surgical removal of a buried root, unerupted tooth, impacted tooth or exostosed bone.

Crown(s) provided – The figure entered in this box is the number of teeth that have been provided with laboratory-fabricated permanent crowns as a finished restoration on this course of treatment.

- The crowns may be full or three-quarter crowns but must be in a permanent material, in accordance with the materials listed in Schedule 3 Band 3 Charges – Provision of Appliances of the National Health Service (Dental Charges) Regulations 2005. Any post, pins or cores for retention are not counted separately.

Upper denture – Acrylic – This box is completed when an acrylic or resin-based denture is provided (i.e. full or partial denture). The number of teeth present on the denture should be entered.

Lower denture – Acrylic – This box is completed when an acrylic or resin-based denture is provided (i.e. full or partial denture). The number of teeth present on the denture should be entered.

Upper denture – Metal – This box is completed when a metal-based denture is provided (i.e. full or partial denture). The number of teeth present on the denture should be entered.

Lower denture – Metal – This box is completed when a metal-based denture is provided (i.e. full or partial denture). The number of teeth present on the denture should be entered.

Veneer(s)– This is the number of teeth that have been provided with laboratory fabricated veneers in permanent materials in accordance with the materials listed in Schedule 3 Band

3 Charges – Provision of Appliances of the National Health Service (Dental Charges) Regulations 2005. They may be on the labial or palatal surface.

Inlay(s) – The number of teeth provided with inlays, pinlays or onlays, using an indirect technique and permanent material, in accordance with the materials listed in Schedule 3 Band 3 Charges – Provision of Appliances of the National Health Service (Dental Charges) Regulations 2005

Bridge(s) fitted – This box is completed when a bridge or more than one bridge is fitted. The number entered is the total number of units that the bridge(s) spans. For example, you should include the number of retainers and pontics together. Adhesive bridges are entered in a similar manner and the total number of units includes the pontic(s) and any associated 'wings'.

Referral for advanced mandatory services – Enter the band of the treatment to be provided under advanced mandatory services. In "Treatment Category", enter the band of the treatment provided by the clinician referring the patient. The collection of the patient charge is the responsibility of the referring clinician and is based on the charge band for the entire course of treatment.

Examination – Cross this box when carrying out an examination for treatment planning purposes which would normally include charting of the teeth, recording of the periodontal condition and soft tissue examination all of which would be detailed with other necessary clinical details on the clinical record.

Antibiotic Items Prescribed – This box is completed when the patient is issued with a prescription containing antibiotic items. The number of antibiotic items should be entered (i.e. the number of antibiotic treatments rather than the number of pills).

Other treatment – This box should be completed when any treatment has been provided for which there is no appropriate clinical dataset item. This item can be entered in addition to other clinical data.

Best practice prevention according to Delivering Better Oral Health offered - This box should be completed prior to submitting the form. It should be ticked if you have followed the guidance as detailed in [Delivering better oral health](#).

Aerosol Generating Procedure – This field is to be completed to record the number of AGP appointments provided as part of the course of treatment. This information is optional and is no longer required to be submitted.

Custom Made Occlusal Appliance Hard Bite – Select this box when a Hard Bite Custom Made Occlusal Appliance has been fitted.

Custom Made Occlusal Appliance Soft Bite – Select this box when a Soft Bite Custom Made Occlusal Appliance has been fitted.

Denture Additions/Reline/Rebase - Select this box to indicate whether a denture had additions, relines or rebasing.

Phased Treatment – Select this box when a course of treatment is provided as part of Phased Treatment. Phased treatment may consist of up to three courses of treatment; all these will usually be completed within a 12-month period.

Preformed Crowns (band 2) - Enter the number of deciduous teeth that have been restored with preformed crowns, for example, Hall Technique.

Advanced Perio Root Surface Debridement – Where Advanced Perio RSD is provided, the number of sextants involved needs to be entered

Decayed teeth - Permanent (teeth with established caries) - Enter the **number of permanent teeth** that are decayed for all patients aged 6 years and over. If a tooth has decay and is also restored, count the tooth as decayed.

Decayed teeth - Deciduous (teeth with established caries) - Enter the **number of deciduous teeth** that are decayed for all patients up to and including patients aged 11. If a tooth has decay and is also restored, count the tooth as decayed.

Missing teeth - Permanent (Where a tooth has been extracted) – Enter the **number of permanent teeth** that are missing for all patients aged 12 years and over. Only count a tooth as missing if you are confident that that tooth was extracted.

Missing teeth - Deciduous (Where a tooth has been extracted) – Enter the **number of deciduous teeth** that are missing for all patients aged 6 years and under. Only count a tooth as missing if you are confident that that tooth was extracted and not exfoliated. Deciduous teeth ULA, ULB, URA, URB, LLA, LLB, LRA, LRB should be excluded from the count

Filled teeth - Permanent – Enter the **number of permanent teeth** that are filled/restored for all patients aged 12 year and over. Include temporary restorations.

Filled teeth - Deciduous – Enter the **number of deciduous teeth** that are filled/restored for all patients aged 6 years and under. Include temporary restorations.

If there are no teeth in any of the Decayed, Missing or Filled categories or a category is not appropriate due to the age of the patient, enter a value of zero.

Other Services

Treatment on referral	<input type="checkbox"/>
Free repair/replacement	<input type="checkbox"/>
Further treatment within 2 months	<input type="checkbox"/>
Domiciliary services	<input type="checkbox"/>
Sedation services	<input type="checkbox"/>
NICE Guidance	<input type="text"/> (No. of Months)

Treatment on referral – Select this box if you are treating a patient that has been referred to you. If the referral is for advanced mandatory services no patient charge will be deducted. If the patient is referred for Additional Services (Sedation or Domiciliary services) a charge will be taken, as this is considered a new course of treatment. A charge band in “Treatment Category” must also be present.

Free repair/replacement – Select this box if a restoration (Permanent Filling or Sealant Restoration/endodontics, crown, inlay, veneers) has to be repaired or replaced within 12 months. The box should be selected even if a patient charge is not applicable. A charge band in “Treatment Category” must also be present and should be the band applicable to the course of treatment this should be entered in patient charge collected box in “Exemptions, Remissions & Patient Charge”, otherwise no patient charge will be deducted. A charge band in “Treatment Category” must also be present and should be the band applicable to the whole course of treatment. Please note that if Free Repair/Replacement is selected and the Date of Acceptance is on or after 1st April 2022, unless the claim is saved as a draft claim, there must be at least one repairable/replaceable treatment item selected in the Clinical Data Set tab, these are – Permanent Filling, endodontics, crowns, inlays, veneers.

Further treatment within 2 months – Select this box if this course of treatment was required within two months of the completion of a previous course of treatment and is in the same or lower band. This applies to all patients whether exempt/remitted from charges or charge payers. No patient charge will be deducted if applicable.

This does not apply if the original course of treatment was either ‘urgent’ treatment or was incomplete treatment. Additionally, if an ‘urgent’ treatment is required at any point within two months this cannot be claimed as continuation and must be claimed as a separate course of treatment. A patient charge will be deducted if applicable.

Domiciliary services – Select this box if domiciliary services have been provided. If treatment has been provided, then a charge band in “Treatment Category” should be crossed and a patient charge will be deducted if applicable

Sedation services – Select this box if sedation services have been provided. If treatment has been provided, then a charge band in “Treatment Category” should be crossed and a patient charge will be deducted if applicable.

NICE Guidance - Select this box to show the recommended recall interval. This should be between 3 and 24 months and personalised to the patient and their level of oral health risk. Completion of NICE guidance is mandatory on all adult FP17 claims for Bands 1, 2 and 3 where the Date of Acceptance is on or after 01/10/22, but remains optional for patients under 18 at the Date of Acceptance.

Clinician Declaration

All the necessary care and treatment that the patient is willing to undergo will be provided	<input type="checkbox"/>
All the currently necessary care and treatment that the patient is willing to undergo has been carried out	<input type="checkbox"/>
I declare that I am properly entitled to practice under the current dental regulations and that the information I have given on this form is correct and complete. I understand that if it is not, appropriate action may be taken. For the purpose of verification of this and the prevention and detection of fraud and incorrectness, I consent to the disclosure of relevant information from this form to and by the NHS Business Services Authority	<input type="checkbox"/>

Clinician Declaration – The declaration must be completed by a qualified clinician on every form. This would normally be the clinician responsible for the course of treatment.

All three declarations should be selected on every form submitted, with the exception of courses of treatment where the clinician decides to discontinue treatment. In this instance, only the first and last boxes should be selected.
