Care and Treatment required

No Treatment required at this time I recommend a checkup in about months

The NHS provides all the treatment necessary to secure and maintain your oral health. There are some treatments (mainly cosmetic) that are not normally available under the NHS, and you may choose to have these provided privately. You may also choose to have some treatment provided privately as an alternative to NHS treatment. The clinician will discuss these options with you so that you can make an informed choice.

Proposed NHS Treatment

Diagnosis and Maintenance	
Examination and advice	
Radiographs, study casts & photos	
Prevention	
Scaling, polishing, marginal correction of fillings	
Adjustments & easing denture(s)	
Other	
Treatment	
Fluoride varnish	
Non-Surgical periodontal treatment	
Surgical periodontal treatment	
Fissure sealants	
Permanent fillings & sealant restorations	
Endodontics	
Extractions & other oral surgery	
Occlusal splints (fabricated in the mouth)	
Relining, rebasing and additions to dentures	
Denture repair	
Other	
Care Pathway	
Care pathway 1	
Care pathway 2	
Care pathway 3	
Appliances	
Veneers, pinlays, inlays, onlays, crowns	
Bridges	
Dentures	
Other appliances	
Urgent treatment	
Other

Charge for Private treatment	£ <input type="text"/>	I understand the nature of the proposed private treatment services and accept those services and the associated fees as detailed.	Patient's signature

Should it become necessary to alter this treatment plan, you will be advised of the changes and any amendment to the cost.

What NHS dental care means to you

What the NHS will provide

The NHS provides all necessary dental care and treatment. There are some treatments (mainly cosmetic) which are not available under the NHS, and you may choose to have these privately. You may also choose to have some treatment privately as an alternative to NHS treatment. If you wish to have some private treatment then I shall give you a written estimate beforehand, on this treatment plan.

Emergency care protocols during treatment

Whenever possible please contact us about urgent treatment during normal surgery hours. If you need to be seen the same day, please get in touch as early in the day as possible. If an emergency arises out of hours, you can call NHS 111. They can give you details of out-of-hours dental services in your area.

Care packages description and eligibility

The care pathways support patients aged 16 and over with the dental needs as described below:

- Care Pathway 1 (6 months): You have at least five teeth with deep cavities (holes reaching the inner layer of the tooth), and the dental team here will fix them.
- Care Pathway 2 (12 months): You have at least five teeth with deep cavities and gum disease that is not stable. The dental team will treat both your teeth and gums.
- Care Pathway 3 (6 months): You have just been diagnosed with a serious stage of gum disease (Stage 3 or unstable Grade C), and the dental team will treat it.

Dental treatment charges

I want you to understand the treatment being offered and any charge which may apply. Overleaf is a treatment plan and an estimate of the cost. Within 2 months of completion of the course of treatment detailed overleaf, should you require further NHS treatment in either the same or lower charge band, you will not normally need pay again.

Please ask if you do not understand this or need any further information.

Treatment on referral

With your agreement, it may be necessary to refer you to another clinician under NHS arrangements, for part of your course of NHS dental treatment. Where this happens you will pay your patient charge based on the treatment you received at each location unless you have been referred under additional services arrangements. For further information on this please talk to the clinician who referred you.

Paying for NHS treatment

You must pay the statutory charge for NHS dental treatment, unless you qualify for an exemption or are entitled to NHS dental services at a reduced cost. You will not have to pay the NHS dental patient charge, or may be entitled to dental treatment at a reduced cost if you meet certain criteria, shown below.

THERE IS NO CHARGE:

If on the first day of treatment:

- **you are under 18 years of age**
- **you are under 19 and in full-time education**
- **you are pregnant or have had a baby or stillbirth in the last 12 months**

If during the course of treatment you receive, or are included in an award (as a claimant, partner, or dependent person under 20) of:

- **Universal Credit and you meet the extra criteria.** (There are other circumstances and conditions that you should be aware of before requesting an exemption. For these, look at the 'Other support you may be able to get' section of your statement. Find out more at www.nhsbsa.nhs.uk/UC)
- **Income Support** (Incapacity benefit and Disability Living Allowance does **NOT** count)
- **Income-based Jobseeker's Allowance** (Contribution-based does **NOT** count)
- **Income-related Employment & Support Allowance** (Contribution-related does **NOT** count)
- **Pension Credit Guarantee Credit** (Savings Credit on its own does **NOT** count)

If you are named on one of the following certificates that are valid during your course of treatment:

- **HC2 Certificate**

YOU DO NOT HAVE TO PAY THE NHS DENTAL PATIENT CHARGE ONLY IF YOU RECEIVE THE BENEFITS LISTED ABOVE OR HOLD A VALID HC2 CERTIFICATE

YOU CAN RECEIVE NHS DENTAL TREATMENT AT A REDUCED COST IF:

- you are named on an HC3 certificate that is valid during your course of treatment

If you feel you would benefit from help with NHS charges in the future, you may wish to make an application to the NHS Low Income Scheme which provides full or partial help with costs.

To find out more about the NHS Low Income Scheme or for more information on help with health costs, please visit www.nhs.uk/nhs-services/help-with-health-costs

Replacements free of charge

If you are 18 or over and a filling, root filling, veneer, inlay or crown provided by me under the NHS within the last 12 months has to be replaced, you will not be charged if you return to me, unless:

- a) the treatment was temporary; or
- b) it was provided against my advice; or
- c) the replacement is necessary because of accident; or
- d) a different treatment is necessary because a satisfactory replacement is not possible.

This NHS cover does not apply to any private treatment you may have.

Cancelling appointments

If you have to cancel an appointment, please give as much notice as possible in order that it may be offered to someone else. If you miss appointments I may be unable to provide further treatment.

Regular care

Your dental team will advise when to book your next check-up. Adults with healthy teeth and gums may only need one every two years, while children are usually seen annually. If you develop problems with your teeth, gums, or mouth, contact a dental practice for an earlier appointment. For urgent or emergency care, call NHS 111 or speak to a dentist directly.
