

# Claiming free NHS dental treatment?

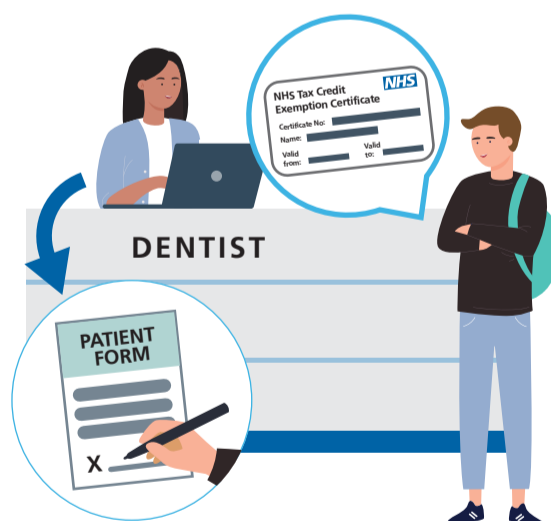

If you claim when you're not entitled to, you could have to **pay a penalty charge of up to £100.**

**Not everyone can claim free NHS dental treatment in England.**

It's important you know your entitlement before you visit the dentist.

If you're entitled to free NHS dental treatment, you'll be asked to show written proof that you don't have to pay for your treatment. You'll also be asked to sign a form.

If you're not automatically eligible for free NHS dental treatment, you can apply for help through the NHS Low Income Scheme.
